DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4,5,7,8,19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 4 and 5 are indefinite because there is no direct antecedent basis for the recitations of "the barrier surfaces contacted by the oxygen containing gas" and "the barrier surfaces contacted by the hydrogen containing gas". Claim 7 is indefinite because there is no direct antecedent basis for the recitation of "the barrier surfaces contacted by the oxygen containing gas". Claim 8 is indefinite because there is no direct antecedent basis for the recitation of "the barrier surfaces contacted by the hydrogen containing gas". Claims 19 and 20 are indefinite because there is no direct antecedent basis for the recitation of "the connected pores".

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the process of use and the apparatus structure of Croset (2002/0155338).
5. Claims 1-7,12-17 and 19-25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the process of use and the apparatus of Mercuri (2002/0094471).
